PROJECTS

Car Rental Management System

- Built a full-stack car rental platform with user authentication and complete **CRUD-based** booking and inventory management.
- Containerized the application with **Docker** and set up **Jenkins-based CI/CD** pipelines for automated build and deployment.
- Designed **role-based access control (RBAC)** to enforce secure, permission-scoped access across user types.

Cloud-Based File Optimization Platform

- Developed a serverless PDF processing platform on **AWS**, supporting file conversion, compression, merging
- Architected the backend with **Lambda, API Gateway, S3, and CloudFront** for scalable, low-latency file handling.
- Implemented **IAM**-based access control and **CloudWatch** monitoring/logging for secure, observable infrastructure.

CERTIFICATES

- AWS Certified Cloud Practitioner — 2026
- AWS Certified Developer – Associate — 2026
- Automation Anywhere Certified Advanced Automation Professional - 2026
- Azure Fundamentals AZ-900 -2026
